Bringing You Success, One Story At A Time.

CITY RECORDS DEPARTMENT

All Files

Overview:

The distributor conducted a NetFileManager seminar. The City Records Administrator and his staff were in attendance at this seminar. Initially the city purchased NetFileManager to manage all of the city's records. This included boxed (archived) records, and active files which were color-coded on open shelving. The distributor proposed NetLabels as an alternative to hand wrapping 5 individual color-coded labels. The city is now using several different label styles to handle multiple file collections including: Legal Agreements; Revocable Licenses; Deeds; Easements; Escrow Agreements; Contracts; Covenants Resolutions; Ordinances and Agenda packets.

Re-order Potential:

The distributor now receives folder business, NetLabels re-orders, and will also be included in any new equipment projects. In addition, the city is in the process of adding two additional label styles. NetLabels and NetFileManager offer superior solutions for today's record keeping problems. Using NetLabels and NetFileManager will lead to more traditional filing business (folders & equipment) as well.

The Label Shown on the Right is Style #3023

The label style used was #3023, #3024, and #3025. You can view or print a sample of these labels by going to www.netlabels.com. Now, click on the "print labels" box. Enter "guest" under username and password. Lastly, just scroll down the label styles until style #3023, #3024, or #3025 appear and click on one of them.

To contact our NetLabels Support Group, call (800)873-4427 and ask for NetLabels, or send an E-Mail to netlabels@gbscorp.com -- To connect just press control and left click on the link.
