Bringing You Success, One Story At A Time.

Financial

Trust Department

Overview:

The distributor contacted the Trust File Supervisor based on a referral. The client was using a competitive label print system, which requires the use of a specific type of expensive laser printer. The existing print system had been in place for some time. The client was facing the decision of purchasing a new “expensive laser printer”. The supervisor wanted to see what other available print systems were on the market. After looking at the NetLabels software, the client was easily convinced to switch.

Result:

NetLabels was chosen over the competition because the client could purchase a low cost ink jet printer, which saved hundreds of dollars. Multiple users at no additional costs can use NetLabels and there would be no more expensive maintenance fees. NetLabels interfaced with other software used in the department. The client was amazed at how well NetLabels matched the colors of the old system and even remarked that the label colors are more vivid than the old system.

Label Design Information:

Two styles are used, one for a Basic Trust and one for Closely Held Trusts. The labels are alpha coded, and include a bar code of the file number, volume number, and a additional alpha code to designate class.

The Label Style Shown is #2355

The label styles used were #2355 and #2356. You can view or print a sample of these labels by going to www.netlabels.com. Now, click on the “print labels” box. Enter “guest” under username and password. Lastly, just scroll down the label styles until style #2355 and #2356 appear and click on one of them.

To contact our NetLabels Support Group, call (800)873-4427 and ask for NetLabels, or send an E-Mail to netlabels@gbscorp.com -- To connect just press control and left click on the link.
