HOSPITAL

CARDIOLOGY DEPARTMENT

Overview:

The cardiology department at the main hospital facility had been a customer of the distributor since 1999. This department had years earlier purchased a print system that included a dedicated printer and annual maintenance fees. The Office Manager contacted the distributor to set up a similar system at a satellite facility, as well as to inquire about replacing the old printer at the main hospital site.

Solution:

The distributor suggested NetLabels software and explained to the customer that there would be no need for annual maintenance, that there would be no need to purchase an “expensive specified” printer, and that the software could be used at multiple locations at no additional charge. The customer was (and is) delighted with the new software. In addition to the NetLabels software, the distributor has also provided a mobile storage system, file folders, and custom chart dividers.

Additional Information:

The label provided is a basic alphabetic label that also includes the patient name, patient medical record number, date of birth, chart creation date (year band), and the initials of the physician. Additionally, **CARDIOLOGY** is printed at the top of the label to indicate departmental ownership.

The label style is #0457. You can view or print a sample of this label by going to www.netlabels.com. Now, click on the “print labels” box. Enter “guest” under username and password. Lastly, just scroll down the label styles until style # appears and click on it.

To contact our NetLabels Support Group, call (800)873-4427 and ask for NetLabels, or send an E-Mail to netlabels@gbscorp.com.
